

ENVIROGRAF® PRODUCT 88

WELDING BLANKETS AND PADS

DESCRIPTION

Easy to handle, non-asbestos welding pads 200mm x 300mm withstanding temperatures of up to 1200°C. For welders and plumbers when joining pipes with heat, protecting walls/wood.

USE

The welding pads are used behind blow lamps for flame protection to walls, pipes, and other fixtures. The welding blankets have fixing eyelets, so that they can be hung or fitted around areas that need protection from welding flames and splashes. Both the pads and the blankets are fibre-free, making them suitable for use in hospital sterile areas, etc.
