

# ENVIROGRAF® PRODUCT 114

## HIGH-TEMPERATURE ADHESIVE

### DESCRIPTION

An Envirograf® adhesive that will withstand temperatures of up to 1400°C, easily applied with a brush or roller.

### USE

Used on boards, brick, steel, and other materials. For porous surfaces, seal first with Envirograf® Product 93 (Stabond) before applying the Envirograf® Product 114 high temperature adhesive. Tools are simply cleaned with water.
